BARIŞ ERKUŞ
FRONT-END ENGINEER

ABOUT ME

My philosophy: Seeing myself as a project and developing this project in the best possible way. Software is my passion. I would like to contribute to myself and your company with the energy that this passion gives me. I hope to work together.

EXPERIENCE

TOSYALI HOLDING   MAY 2024
Research And Development Intern   FEBRUARY 2024
I improved my engineering skills during my time here. In the field of engineering; I learned about literature, patents, OPEX, R&D and RPA. Also in the field of computer engineering; I developed an application with artificial intelligence, made screen drawings of a web application using figma and coded these drawings using react.

FREELANCE (CONTRACT)   JANUARY 2024
Full Stack Engineer   NOVEMBER 2023
I made improvements and optimizations to the front end, which was previously written in React Native. We also wrote the backend from scratch using ExpressJS. I also took part in the deployment processes.

VARDABIT SOFTWARE   SEPTEMBER 2023
Full Stack Engineer   JANUARY 2023
I wrote a Restful API from scratch using .Net on the backend. I also helped my colleagues with React on frontend and React Native on mobile.

TOSYALI HOLDING   AUGUST 2023
Software Engineer Intern   JULY 2023
I drew the screens of the Mobile Applications developed by the Software Team and We worked together on React-Native.

VARDABIT SOFTWARE   JANUARY 2023
Software Engineer Intern   OCTOBER 2022
I worked mostly on the backend. I worked on a real project using C# (.NET) and SQL Server (EntityFramework).

NET INFORMATICS & SOFT SERVICES   SEPTEMBER 2022
Software Engineer Intern   JULY 2022
I trained myself in developing Full Stack applications using Angular, C# (.NET), MSSQL (Dapper).

CERTIFICATES

- The Mobile App Path With React Native
- Web Programming with REACT
- Version Controls: Git and Github
- Asp.Net Core Web API
- Every Aspects SQL Server

You can see my other certificates on my LinkedIn Account

SKILLS

SOFTWARE
   Backend: C# (.NET) - **Database:** SQL Server, MySQL
   Frontend: HTML-SCSS-Javascript, React - **Mobile:** React Native

LANGUAGE
   English: B1**, Turkish:** Native Language

PROJECTS

Standard Programming Assistant: Automaticly Model, Join, Stored Procedure creation.
Teck Stack: C#, Windows Forms, MSSQL

VardaService: It transfers the desired fields in a defined database to the relevant fields in a different database or to a connection.
Tech Stack: C#, Windows Services, MSSQL

LotoStandard: A mobile application that enables the creation of maintenance instructions for each machine in the facility.
Tech Stack: React Native (Expo), .Net Core, MSSQL, RestfulAPI, Onion Architecture, Some Design Patterns

Shareup: A mobile application that collects all social media applications in one application and adds additional features.
Tech Stack: React Native (react-native-cli), ExpressJS, MySQL

Bookstore: This mobile application allows reading books on the digital platform.
Tech Stack: React Native (react-native-cli), ExpressJS, MySQL

Billboard's: A mobile application that allows renting and managing billboards.
Tech Stack: React Native (Expo), .Net Core, MSSQL, RestfulAPI, Onion Architecture

EDUCATION

TURKCELL WRITERS OF THE FUTURE   JULY 2024
Frontend Bootcamp Trainee   MARCH 2024

ISKENDERUN TECHNICAL UNIVERSTY   MAY 2024
Computer Engineer   SEPTEMBER 2020
3.54 GPA - (Highest Ranked Student)
